Don't Check Out Yet

Whether you're done with final projects and tests, or you still have a few more to go, it's almost time to step into summer! And even if you "check out" of studying for a while, don't "check out" of your career development this summer. The summer is a great time to better your skills, improve your career readiness, and prepare yourself for possible job and internship interviews. Here are three things to keep in mind this summer:

1. **Job exploration doesn't end when the semester does.**
Career counselors are available by phone, in-person, and Skype ALL summer! You can make an appointment in Handshake at any point.

2. **Your resume can always be improved.**
Using the summer to revamp your resume is always a good use of time. If you need assistance, Handshake has great resources like Optimal Resume and Vault, or as always, you can contact the CCD to set up an appointment this summer.

3. **Explore jobs and internships -- the grind never stops.**
If you're still on the market for a summer internship, or perhaps you're graduating (YAY!) and haven't committed to a job yet, we have thousands of opportunities in Handshake right now, across all clusters. In fact, hundreds are being added weekly, so don't give up your search.

For more great tips, check out this checklist!

The CCD would like to give a big shout out to all the 2017 spring graduates.🎉🎉🎉 WE ARE SO PROUD OF YOU, and wish you the best in the journey ahead. We'll still be in Huff House after you leave campus and can still provide you with career services as an alum. Email ccd@rice.edu for more information.
