Now that classes are over, **walk-ins are also over for the semester**. Counselors are available for in-person, Skype, or phone appointments. Schedule in Handshake!

It's time. Finals are upon us. But don't stress - you have the skills and resources to ace those tests. If you are in need of a summer internship to look forward to, take a study break to peruse these great Owl Edge opportunities!
Here's a little sample of all the cool things you could be a part of by applying in Handshake.

**Project Management Intern (Houston) -- The Women's Home**
**Cluster: Education, Nonprofit, and Social Enterprise**
The Women's Home is a multi-ethnic, non-denominational, non-profit United Way agency that serves women who have experienced homelessness because of mental illness, abuse or addiction. Learn more or apply [here](#).

**Summer Intern (Houston) -- Houston Botanic Garden**
**Cluster: Art, Communication, and Entertainment**
Over the summer, you will complete two great projects! The Education Project involves researching and designing an education outreach program that will be implemented before the Houston Botanic Garden opens. The Marketing Project involves assisting with quarterly newsletters and designing a social media strategy. Learn more or apply [here](#).

**Summer Intern (Austin) -- Expero**
**Cluster: Computer, Information Technology, and Mathematics**
Expero helps its clients bring challenging product ideas to reality. They work through the full lifecycle of software development, from lean discovery and prototyping, market validation and UX design, to innovative architecture and development. If you enjoy lighting up a screen with an intricate 3D geologic scene, a carefully constructed portfolio of trades, or a detailed electronic schematic, then you'd enjoy working on the kinds of projects they tackle. Learn more or apply [here](#).

If you are an Owl Edge Summer Experience Fund recipient or Owl Edge Intern, RSVP to this workshop. Lunch will be provided. Topics include: The expectations of an intern, communicating in a professional environment, identifying and adapting to your work culture, and how to create work/life balance. Learn more or register.

Medical Science Liaison: An Alternative Career for Scientists
Tuesday, April 25
6:00 - 9:00 pm, 6767 Bertner Ave
The Association for Women in Science (AWIS) GCH and the MD Anderson UTHealth Graduate School will co-host a workshop titled “Medical Science Liaison: an alternative career for scientists” on Tuesday, April 25th from 6-9 pm. Sarah H. Rodriquez, Pharm.D., will speak and share her insights. Learn more or register.

McKinsey Resume Workshop
Monday, April 24
7:30 pm EST
Freshman and Sophomore women are invited to join McKinsey & Company to learn more about the Undergraduate Women's Summit and ways to craft your resume for the event application! RSVP by Monday at noon for details.

Jobs and Internships
Unique opportunities you might not find in Handshake

Content Marketing Intern -- Riversand Technologies
Research, analyze, create and publish content (biogs, case studies, articles, whitepapers etc.) at a regular cadence with a goal of increasing social and search presence and lead generation, increase customer engagement and visitor to lead conversion rate on the corporate website, and more. Learn more here.
Summer Venture Management Program -- Harvard Business School
The Harvard Business School (HBS) Summer Venture in Management Program (SVMP) is a one-week residential educational program for rising college seniors designed to increase diversity and opportunity in business education. This summer's program will be the 35th anniversary of SVMP. Learn more here.

Cluster: Computer, Information Technology, and Mathematical; Arts, Communication, and Entertainment
Deadline: Currently accepting applications

Public Affairs Intern -- Apache Corporation
The Public Affairs intern will assist the company's internal and external communications efforts by working across a variety of internal departments to create and disseminate key messages and stories on behalf of the organization. Each of the job's responsibilities will be tailored to help the intern connect the task to larger corporate communications objectives. Learn more here.

Cluster: Arts, Communication, and Entertainment
Deadline: April 28, 2017

Business Development Associate -- Renovo Auto
Renovo builds technology which merges software, data analytics, and automotive-grade safety systems into a unified solution for Automated Mobility on Demand (AMoD) deployments. Renovo's safe, secure, and scalable platform is capable of processing multiple terabytes of data—each hour—in even the most demanding conditions. Their mission is to drive the expansion of AMoD to the greatest scale and highest efficiency by deploying its technology across vehicles, fleets, and the cloud. Learn more here.

Cluster: Finance, Consulting, and Enterprise
Deadline: July 19, 2017

Intern - ACS Engineering
ACS is in need of a person who is adept with HTML5 programming and in writing text for websites. This person will refine and further develop existing websites and produce new websites. The person will work under the guidance of a skilled developer and will likely have some direct interaction with Google staff. The ideal person will be skilled at developing website code, understanding how to make websites appealing to viewers and will also be able to write text for the new and existing websites and more. Job will be posted in Handshake soon -- be on the lookout!

Cluster: Computer, Information Technology, and Mathematics
Deadline: Now Accepting Applications
